The nude human figure as an art form has been with us since the beginning of recorded history and no doubt will stay with us into eternity.

Unfortunately, photographic documentation of the human figure is not balanced. A wealth of material depicting the nude female is available from countless sources; but the nude male is unjustly neglected and avoided. To help fill this gap, we at DSI offer this publication dealing the nude male figure.

It is our conviction that the human body is clean and wholesome and should be viewed with esteem and serenity when seen in its totality. Man's body - in all of its infinite variations - was created in God's image, and He created all things good.
